Liebherr launches new apprentice programme

■ Strong demand expected for latest intake at factory

65 YEARS after it first put down roots in Kerry, one of the county's biggest success stories in business has unveiled details of its latest programme for apprentices that's expected to attract huge interest.

BY JOE Ó MUIRCHARTAIGH

Liebherr in Killarney has opened applications for its 2024 Apprenticeship Programme, with the globally recognised leader in the supply of container cranes showcasing once more its commitment to nurturing and development of new young talent in the engineering industry.

Liebherr came to Kerry in 1958 and since the foundations for the original factory were laid, over 1,000 appren-

tices have earned their qualifications at the Killarney facility.

Since 1972, the company has traded as Liebherr Container Cranes Ltd, specialising in the production of container handling cranes to become one of the world's leading manufacturers of ship to shore cranes, rail mounted gantry cranes and rubber tyre gantry cranes.

"It is different each year, we could get over 100 applications across the three streams that we have," said Charlene Hickey of Liebherr's Learning

& Development Department.

"We would be considered the preferred employer for apprentices because they get the dual qualification when they come to us and there would be jobs in the factory once they have qualified."

"They are finishing up with two qualifications. If they're doing electrical, they're an electrician, but they would also have a higher certificate in electrical engineering technology," she added.

Graduates who come through the programme receive a dual internationally recognised qualification - a Level 6 Craft Certificate and a Level 6 Higher Certificate in Engineering in their respective fields from Munster Technological University.

The Liebherr Apprenticeship Programme is carefully designed to provide participants with a comprehensive

APPLICATIONS: Liebherr Managing Director, Charlie McCarthy

training experience, leading to both craft and academic qualifications.

Prospective apprentices can choose from one of three diverse disciplines: Electrical, Mechanical Automation and Maintenance Fitter, or Metal Fabricator.

"We take great pride in providing young individuals with a clear and comprehensive pathway into the world of engineering," said Managing Director, Charlie McCarthy.

"Our Apprenticeship Programme equips participants with a diverse skill set combining both the practical and theoretical, thereby allowing students to embark on a rewarding and successful career in the industry," he added.

"Every four years we have a group qualifying," revealed Ms Hickey. "We aim and hope for them all to stay on with the company, but there are a lot of people going travelling nowadays."

"The amount we take on depends on many retirees we have coming up, but going on the last couple of years we'd

be taking on between 20 and 25 of those apprentices when they finish," she added.

Applications for the Apprenticeship Programme will be accepted until August 25th. Interested candidates are encouraged to submit their up-to-date CV, a copy of academic results and a cover letter specifying their preferred role and the reasons for their interest to apprenticerecruit.lcc@liebherr.com.

The successful candidates will have the chance to participate in an apprentice exchange programme with Liebherr's sister companies in Austria and Germany.

The **Kerry ETB Mentor Project** is a mentoring service **FOR** young people.

We provide an independent service - which means that we do not recruit for any programme, course, training provision, etc.

We provide mentoring which has a progression focus - which means that we work with you to help you make the best plan for your future.

We provide mentoring with each young person on a case by case basis and so your plan will be different to anyone else's.

If you would like some support moving forward, if you feel you are stuck, or if you just need a little help trying to make decisions on what to do next, please contact us.

This is a **FREE & CONFIDENTIAL** service.

"The delicate balance of mentoring someone is not creating them in your own image, but giving them the opportunity to create themselves."
